

Commercial Vehicle Accident Reconstruction

Vehicle accidents happen every day. In many cases, they result in serious bodily injury, permanent disability, loss of life and property damage. Envista's experienced vehicle accident reconstructionists are industry-recognized experts in evaluating all vehicle accidents from automobile accidents, to collisions involving tractor trailers, motorcycles, pedestrians, container ships or trains.

Our experts are located globally and utilize the most advanced technology in the industry as part of the reconstruction process. Envista Forensics experts are trusted with all stages of the investigation: from initial site inspection, to delivering expert witness testimony. Our team is dedicated to accurately, clearly, and cost-effectively documenting and presenting the facts.

WHAT WE DO

- Accident Scene Investigation
- Accident Scene Diagramming
