

Subrogation & Recovery

OUR PEOPLE MAKE THE DIFFERENCE

Fires, explosions, mechanical and electrical breakdowns, marine cargo, construction defect incidents, and even cyber breaches can all lead to insurance claims, many of which are caused by third parties. Insurers will typically indemnify these claims to restore the policyholder to pre-loss condition. In order to ensure a successful recovery, it is critical that Subrogation potential be identified as soon as possible, as this may impact the way in which the claim is handled.

Following a complex catastrophic loss, it is natural for all involved parties to become preoccupied with immediate needs, however subrogation opportunity should be considered at the onset to maximize the potential for recovery. Envista understands the need for immediate response to Subrogation-related matters.

OUR EXPERTS HAVE WORKED ON A WIDE VARIETY OF SUBROGATION CASES GIVEN OUR MULTI-DISCIPLINARY CAPABILITIES

Our forensic experts have decades of experience working with both defendants and plaintiffs, and are focused on the need to identify all potential areas of recovery.
