## EDUCATIONAL RESOURCES

Envista has been offering educational resources tailored to legal professionals for over 10 years, providing CLE approved technical courses through our robust global course catalog. Our CLE courses are presented by our senior technical experts, covering some of today's most pressing issues, and can be customized and presented live in-firm or remote via webinar as an educational training resource.

## TECHNOLOGY

Technology is at the forefront of what Envista does and the center of the world we live in today. We supply our experts with the latest in technology and advanced equipment for inspections and investigations, including:

- 3D Forensic Imaging for Accurate Scene Capture and Onsite Modeling
- Digital Thermography
- Drone Technology for UAV Inspections and Aerial Documentation
- Non-Destructive Inspection Tools
- Trial Graphics and Animation
